

# VALOVOIMA MINI DTW dark grey

---

Innolux Valovoima Mini is the latest update to the Valovoima product family designed by Harri Koskinen. Valovoima Mini is a multifunctional and compact bright light device. The stylish and handy leather strap can be used to hang the luminaire, or you can easily place the bright light on the wooden ash stand with magnetic attachment. Its light weight and leather strap make it easy to move from place to place. The new improved Valovoima mini has a dim to warm feature as well as color temperature adjustment. Easy use, compact size and finished details make it the perfect choice for homes and offices.
